

## WHO WE ARE

- FASI is a non-profit foundation that was established as a result of collaboration between the Public Sector, the Private Sector and the Third Sector.
- We develop innovation projects for attention to infants in situations of social risk and their families in Catalonia.
- The values of transparency, participation, economic and environmental sustainability, conscientiousness and commitment with people and the environment are applied in all of our projects.

## APPROACH

- We focus our work on the capabilities and potentialities of families rather than on their difficulties and shortfalls.
- Intervention is global as children and adolescents are aided together with their family units.
- Our innovative vision of both the model of intervention and that of the organizational structure contribute towards minimal institutionalization.
- We foster reintegration of minors with their families of origin in a short period of time by means of intense family work.

## ORGANIZATION

- FASI currently runs 8 shelter homes and 4 more are being created.
- Each one of the shelter homes has a team of educators, psychologists, trainers and social and family workers.
- Children and their families are attended to in small groups, in their own environments. In this manner, their situations are normalized to a maximum, while working procedures and the relations between the children and their educators are improved.
